 - Automatically turn on the low beam headlamps at reduced brightness
 - The system's sensors switch automatically from Daytime Running Lamps to low beam headlamps in the dark
 - Conditions are brighter

Safety

- Traction control
 - Helps driver maintain traction when accelerating on wet or icy roads
 - Automatically applies brake pressure to appropriate wheels
 - Includes a vehicle stability enhancement system that provides automatic steering control. When wheels slip, the system automatically reduces engine power and control transmits the driver's steering input to the wheels that are slipping
- Driver and right-front passenger frontal air bags¹
 - Work with the safety belt system to reduce the risk of injury to the driver and front passenger
 - Include a Passenger Sensing System that uses sensors in the front passenger's frontal air bag;¹ it is designed to help reduce the risk of injury to the front passenger
- ¹ Always use safety belts and child restraints. Children are safer when properly secured in a vehicle's back seat.
- Head/side curtain air bags¹
 - Side-impact air bags¹ are designed to inflate in certain modes of operation
 - Work with the safety belt system to provide additional occupant protection
- ¹ Always use safety belts and child restraints. Children are safer when properly secured in a vehicle's back seat.
- Safety belts, 3-point, driver and front passenger
- Tire Pressure Monitoring System (does not apply to spare tires)
- Horn, single-note
